WORK EXPERIENCE

Full Stack Web Developer — DOAGuru InfoSystems

Jabalpur, MP | Jan 2026 – Present

- Delivered 4 production web platforms end-to-end, from database design to deployment, across real estate, healthcare, and business-automation domains; recognized with a company Appreciation Certificate for outstanding contribution
- Built Revenue Engine, a full client-to-cash automation system covering proposal generation, WhatsApp/Gmail approvals, GST & TDS-calculated invoicing, and revenue reporting
- Developed Nidhivan Developers, a real estate platform for a 3-property portfolio, and MedBrainix, an AI-powered clinic management platform with a smart revenue dashboard and AI voice scheduling
- Integrated Generative AI into live production applications, improved application performance by 40% through optimization, and implemented SEO best practices to boost search visibility
- Extended and reused shared backend infrastructure across related projects, including Ayushi Construction and Siara Property

Web Developer — MBG Card

Oct 2025 – Dec 2025

- Developed responsive WordPress websites using custom themes and modern UI/UX practices
- Reduced page load time by approximately 40% through performance optimization
- Implemented SEO best practices to improve search engine visibility

Web Developer Intern — MNA Studios

Mar 2024 – May 2024

- Designed and developed user-friendly, visually appealing websites for clients
- Performed website maintenance, bug fixes, and content updates to improve engagement

SEO Expert & Canva Designer — SalvusApp Solution

Feb 2023 – Nov 2023

- Conducted technical SEO audits and link-building campaigns that improved website indexing and ranking
- Created marketing creatives in Canva and monitored analytics to report campaign performance

FEATURED PROJECTS

Revenue Engine — Client-to-Cash Automation Platform

DOAGuru InfoSystems

- Built an end-to-end automation system spanning client onboarding, proposal generation, WhatsApp/Gmail approval notifications, GST & TDS-calculated proforma invoices, payment confirmation, auto-generated invoices, task assignment, and revenue reporting
- Integrated WhatsApp Business API with 6 Meta-approved message templates for automated client notifications
- Built with Node.js, Express.js, and MySQL using a normalized proposal-to-invoice data flow

Nidhivan Developers — Real Estate Platform

DOAGuru InfoSystems

- Designed the database schema and built a full admin panel plus a lead-focused client-facing site for a 3-property real estate portfolio
- Built with React.js, Tailwind CSS, and shadcn/ui; implemented GSAP-based scroll animations and Swiper.js carousels
- Delivered bilingual (Hindi-English) content that the client credited with improving lead conversion

Natura Health Care — Global Pharma Import/Export Platform

DOAGuru InfoSystems

- Built a full-stack platform with Next.js, React.js, and TypeScript to showcase manufacturing, product portfolio, and worldwide distribution for an international healthcare brand
- Developed an admin dashboard with category-wise infinite scrolling for product and shipment management
- Integrated an interactive map with country-level markers to visualize global export destinations

EWA — Online Dietitian & Consultation Platform

- Built a subscription-based health platform with a personal dashboard for browsing plans, registering, and managing health profiles
- Developed a multi-role system (Admin, Staff, Client) with JWT-based, role-based access for appointments, prescriptions, and reports
- Added a blog module for staff to publish health content, improving platform SEO and organic visibility

EDUCATION

M.Sc. Computer Science — Makhanlal Chaturvedi National University

2022 – 2024

B.Sc. — Rani Durgavati Vishwavidyalaya (RDVV), Jabalpur, MP

2019 – 2022
